Audiovisual Systems Designer

Looking for a career with professional growth in a close-knit, fun atmosphere? IP Design Group offers the perfect balance of technical and professional growth. We're big enough to deliver cutting-edge experience; small enough to know your name. We think you are going to like IP Design Group.

Job Responsibilities:

- Designing audiovisual systems, including video presentation, sound reinforcement, control system, and collaboration equipment
- Determining design scope, schedule, budget, phasing, site issues, and design review issues
- Serving in a potential lead-consultant role on various prime contracts
- Producing construction documents and assisting with construction administration tasks
- Serving as liaison between clients, agencies, subcontractors, and the design team
- Ensuring the preparation of accurate, complete, and value-added work products
- Identifying and implementing ideas that will save our clients time and money
- Using high level of engineering judgment and experience to develop quality engineering solutions
- Maintaining continuous and open project communications
- Developing and maintaining a client base as a result of delivering highly successful projects

Qualifications:

- Bachelor's degree
- 2+ years' audiovisual systems design experience or AVIXA CTS/CTS-D certification
- 2 years' project technology infrastructure design and construction experience
- Strong client management skills
- Ability to work in a team environment and set and manage priorities
- Excellent people skills and strong oral and written communications skills

We Offer:

- Professional development opportunities, including training and mentoring programs; organization and professional registration; and tuition and technology reimbursement programs
- Medical, dental, vision, and life insurance benefits, as well as supplemental insurance through AFLAC
- Generous 401(k), profit sharing, and discretionary bonuses
- Progressive wellness benefits, including fitness reimbursement and volunteer time off

With six locations across the Midwest, IP Design Group offers both a solid foundation and room for you to advance your career.
